Help the Chamber of Commerce Boost for El Paso

The Gem of The Southwest

Thursday, Dec. 1, at 8 o'clock p. m.

The question of the installation of pumping plants for the land in the valley will be the feature of the evening's business at this meeting and should have the attention of every citizen of this city and valley.

Every city grows by what it feeds upon and all food comes originally from the country. If the territory surrounding this city raises \$100,000 of farm products, the farmer who trades with you can buy only that amount of goods; but if you can so stimulate agriculture that it produces one million, your trade will be increased in the same proportion. Really it is increased in greater proportions for then are things possible in a city of the one million class that are impossible in the 100,000 basis.

Let us stop our hard times talk and get to work doing the things needed for El Paso.
